

What agency is the Department of Agriculture's Implementing Unit for CPES?

- a. Bureau of Agricultural and Fisheries Engineering
- b. Philippine Domestic Construction Board
- c. Philippine Council for Agriculture and Fisheries**
- d. Regional Agricultural Engineering Division

To be classified as an SCTE, an AB Engineer must have an examination score of more than how many percent?

a. 50%

b. 60%

c. 70%

d. 75%

One of the sanctions of RA 10601 is the filing of closure proceedings against business entities not duly registered as manufacturers, assemblers, dealers or importers of agricultural and fisheries machinery, or sells new agricultural and fishery machinery...

- a. not duly certified and without a serial number
- b. without warranty
- c. without after-sales service
- d. not duly certified, without a serial number, or without warranty, without after-sales service and is substandard**

An aged standard is considered when _____.

- a. The standard reached 5 years from its promulgation.
- b. The standard reached at least 10 years or more from its promulgation.**
- c. The standard reached more than 5 years but less than 10 years from its promulgation.
- d. The standard reached 15 years from its promulgation.

What issuance advises the public about the submission of PTO and CC as requirements during the post-qualification of bidders?

- a. DA DC No. 04, Series of 2019
- b. DA MC No. 30, Series of 2020**
- c. DA MC No. 04, Series of 2020
- d. DA DC No. 19, Series of 2018

The maximum rating for materials upon completion is:

a. 0.20

b. 0.30

c. 0.35

d. 0.40

How many years of experience in the actual implementation of projects are needed to be an evaluator in CPES?

- a. 2
- b. 3
- c. 4
- d. 5**

JMC No. 2018-02 is created by DA in coordination with what agency?

- a. Philippine Council for Agriculture and Fisheries
- b. Department of Trade and Industry
- c. Department of the Interior and Local Government**
- d. Department of Labor and Employment

It is the type of testing and evaluation wherein the performance of a complete and fully integrated several machines or facilities is validated.

- a. field testing
- b. acceptance testing
- c. system testing**
- d. functionality testing

The systematic process of assessing the performance of a machine using specified repeatable procedures.

- a. evaluation
- b. guidelines
- c. quality assurance
- d. testing**

Testing - the systematic process of assessing the performance of a machine using specified repeatable procedures

Evaluation – process of assessing a machine or equipment, preferably in numerical or quantitative terms relative to statutory requirements and/or specific standards

It is a compendium of information or series of options that does not recommend a specific course of action, most especially for AFME.

- a. Information document
- b. Code of Practice
- c. Product Standard
- d. Guidelines**

Which parameter is not part of after-sales service compliance monitoring?

- a. Services after warranty period
- b. Operation and repair and maintenance
- c. Illustrated parts catalogue
- d. Warranty from user misuse**

The time to respond by the MFADDIE to deliver their after-sales service upon the receipt of complaints.

a. Within 3 days

b. Within 2 days

c. Within 1 day

d. Within 5 days

Department Circular No. 02, Series of 2023 of DA is also known as?

- a. Revised National Guidelines on Testing and Evaluation of Agricultural and Fisheries Machinery**
- b. Revised Accreditation Guidelines for Agricultural and Fisheries Machinery Testing Center
- c. National Guidelines on the Issuance of Certificate of Conformity for Agricultural and Fisheries Machinery
- d. National Guidelines on the Conduct of Acceptance Testing for Agri-fisheries Machinery

According to the methods of sampling for agri-machinery, if the lot size ranges from 11 to 25, then the sample size for testing shall be?

- a. 1
- b. 2**
- c. 3
- d. 5

Which of the following is not included in the criteria for the accreditation of an agricultural and fisheries machinery testing center?

- a. Must have at least two regular employees that are CTE specific for the category applied**
- b. Must have a quality assurance system
- c. Must be an HEI, private, or government entity
- d. Must satisfy the minimum requirement for the office space, testing facility, and testing equipment

The maximum weight rating for Environmental, Safety and Health criteria during construction.

- a. 0.40
- b. 0.15
- c. 0.07**
- d. 0.30

Registered agricultural and fisheries machinery shall be revalidated ____ years after its registration.

- a. 2
- b. 3
- c. 4
- d. 5**

The revalidation of the registered AFME shall be done by?

- a. Philippine Center for Postharvest Development and Mechanization
- b. Bureau of Agricultural and Fisheries Engineering**
- c. Local Government Units
- d. Regional Agricultural Engineering Division

It is undertaken by a government procuring entity as part of the procurement process.

- a. field testing
- b. acceptance testing**
- c. system testing
- d. functionality testing

A project to be evaluated for CPES has a project duration of 85 days. How many total visits are at least required for evaluation?

- a. 1
- b. 2**
- c. 3
- d. 4

This document is issued to the MFADDIE who will fail the evaluation and assessment during the conduct of after-sales service compliance monitoring.

- a. Motion for Reconsideration
- b. Notice of Non-Compliance**
- c. Notice of Suspension
- d. Notice of Revocation

What is the validity of Certificate of Conformity?

- a. Valid until 5 years
- b. Valid until 3 years
- c. Same validity with the AMTEC test report**
- d. No expiry

It is the certificate issued by the BAFE to all agricultural and fisheries machinery with PNS/PABES which guarantees that the agricultural and fisheries machinery conforms with PNS/PAES.

- a. Certificate of Conformity**
- b. NAMDAC Certificate
- c. Permit to Operate
- d. Certificate of Accreditation

“Guidelines on the Registration and Issuance of Permit to Operate for Agricultural and Fisheries Machinery MFADDIEs” is also known as:

- a. Department Circular No. 04, Series of 2018
- b. Department Circular No. 19, Series of 2018
- c. Department Circular No. 18, Series of 2019
- d. Department Circular No. 04, Series of 2019**

What is the defect liability period in CPES?

- a. 6 months
- b. 12 months**
- c. 18 months
- d. 24 months

They are responsible for the final review and assessment of the recommended applications for the accreditation of agri-fishery testing centers.

- a. PHilMech
- b. AMTEC
- c. BAFE**
- d. BAFS

To apply as a CTE, an AB Engineer must have assisted in the testing and evaluation of at least how many types of machines under a particular category?

- a. one
- b. two
- c. three**
- d. five

This agency is authorized to issue temporary suspension on certain provisions of PNS/PABES that are no longer responsive with existing technologies or inconsistent with new policies pending the updating of PNS/PABES.

- a. PCAF
- b. BAFS
- c. BAFE**
- d. AMTEC

What is the assigned weight of vertical projects upon completion?

a. 20%

b. 30%

c. 40%

d. 50%

What do you call this Entity which is indicated in the Certificate of Conformity that may either be a manufacturer, fabricator, assembler, or importer?

- a. Holder
- b. Primary Holder**
- c. Owner
- d. Secondary Holder

Given the agricultural machinery below:

MACHINE	CATEGORY	LEVEL OF DIFFICULTY
I. Coffee Huller	D – Postharvest Machines (Other Crops)	Easy
II. Coffee Roaster	D – Postharvest Machines (Other Crops)	Medium
III. Forage Chopper	E – Processing Machines	Easy
IV. Composter	E – Processing Machines	Medium

If an AB Engineer is classified as a Junior CTE under Category D, which of the following machines is he/she allowed to test?

- a. I only
- b. I and II
- c. I and III**
- d. I, II, and III

Given the agricultural machinery below:

MACHINE	CATEGORY	LEVEL OF DIFFICULTY
I. Coffee Huller	D – Postharvest Machines (Other Crops)	Easy
II. Coffee Roaster	D – Postharvest Machines (Other Crops)	Medium
III. Forage Chopper	E – Processing Machines	Easy
IV. Composter	E – Processing Machines	Medium

If an AB Engineer is classified as a Senior CTE under Category D, which of the following machines is he/she allowed to test?

- a. I only
- b. I and II
- c. I, II, and III**
- d. I, II, III, and IV

The combined area of spots to be randomly selected for evaluation shall not be less than how many percent of the ongoing and/or completed items of works?

- a. 5%
- b. 10%**
- c. 20%
- d. 30%

After the grant of PTO, an establishment shall be subjected to _____, to ensure their continued compliance with the terms and conditions of the PTO.

- a. validation by BAFE every 1st quarter of the year, with or without prior notice
- b. validation by BAFE any time of the year, with or without prior notice
- c. monitoring by BAFE any time of the year, with or without prior notice**
- d. monitoring by BAFE every 1st quarter of the year, with or without prior notice

The following are some of the objectives of registration and issuance of Permit to Operate, EXCEPT:

- a. National registry of "Fly-by-night" suppliers**
- b. Ensure fair trade
- c. Safeguard the interest of consumers
- d. Prevent MFADDIEs to commit any misconduct

The Certificate of Accreditation (CoA) for testing centers is valid for a period of?

- a. 3 years**
- b. 5 years
- c. 7 years
- d. No expiry

In the conduct of acceptance testing, how long does a CTE allow the supplier to repair the tested machinery if it encounters a breakdown?

- a. 30 minutes
- b. 60 minutes**
- c. 90 minutes
- d. 120 minutes

This consists of parts and services provided by MFADDIE to the end-user to ensure the continuous serviceability of the agricultural and fishery machinery until the end of its economic life.

- a. After-sales service compliance monitoring
- b. After-sales service**
- c. After-sales service comparative evaluation
- d. Maintenance and Operation

If the contract of the infrastructure project states that no supply of construction materials is involved, then the maximum rating for resource deployment during construction shall be?

- a. 0.15
- b. 0.20
- c. 0.25**
- d. 0.30

Which is NOT the role of test engineer during the conduct of acceptance testing?

- a. Declare the suspension or termination of the acceptance testing
- b. Prepare the machinery to be tested and conduct the necessary adjustments**
- c. Lead the conduct of acceptance testing
- d. Compile documentation for the testing activities

A test report issued by AMTEC or any ATC shall be valid for how many years?

- a. 2 years
- b. 3 years
- c. 5 years**
- d. 7 years

It is a type of standard that provides a definitive procedure that produces test results.

a. Methods of Test

b. Specifications

c. Guidelines

d. Code of Practice

What issuance provides the national guidelines on the issuance of Certificate of Conformity for agricultural and fisheries machinery?

- a. DA DC No. 19, Series of 2018**
- b. DA MC No. 30, Series of 2020
- c. DA DC No. 04, Series of 2019
- d. DA DC No. 08, Series of 2024

The Certificate of Qualification for CTEs shall be valid for at least?

- a. 12 months
- b. 24 months
- c. 36 months**
- d. Expiry of ABE license

If a project to be evaluated is a farm-to-market road, then what is its assigned weight during construction and upon completion respectively?

- a. 30%, 70%
- b. 70%, 30%
- c. 40%, 60%
- d. 60%, 40%**

This standard defines the production, processing, transport, and storage practices for an individual commodity or group of commodities that are considered essential to ensure the safety, and suitability of the commodity for consumption.

a. Code of Practice

b. Specifications

c. Methods of Test

d. Guidelines

Code of Practice - standard that defines the production, processing, transport, and storage practices for commodities that are considered essential to ensure the safety and suitability of the commodity for consumption

Product Standard - standard that provides specifications and requirements for the quality and safety of the commodity

Information Document - document that contains information that is useful to competent authorities and/or stakeholders but not considered as a product standard, a guideline nor a code of practice

Guidelines – a compendium of information or series of options that **does not recommend a specific** course of action

Specifications – a standard that provides on **explicit set of requirements to be satisfied** by a material, product, system or services (e.g. safety, performance, materials, fabrication, quality)

Methods of Test – a standard that **provides a definitive procedure that produces test results** (e.g. test materials, test equipment, calculations)

Which of the following is not considered a prohibited act on the conduct of after-sales service compliance monitoring?

- a. Selling of new AFME without warranty certificate
- b. Reasonable delay by the MFADDIE in delivering their warranty service**
- c. Refusal of the MFADDIE or any person obliged to grant a warranty without any valid legal reasons
- d. Refusal on the conduct of compliance monitoring

It is a privilege granted to any MFADDIEs that have passed the review, inspection, and evaluation and are allowed to engage in a particular line of activity which include manufacturing, fabrication, assembly, distribution, dealing, importation, and exportation of AFME.

- a. Permit to Transact Business
- b. Permit to Operate**
- c. Certificate of Conformity
- d. NAMDAC Certificate

Which of the following is not a miscellaneous provision in the testing and evaluation of agri-fishery machinery?

- a. Test results from overseas testing shall still be verified under Philippine conditions
- b. AFME to be procured for R&D may not be subjected to testing, provided that a request is submitted
- c. AFME without PNS/PABES and with unit cost of PHP 1,000,000 and below may be temporarily exempted from testing**
- d. Garden tools and equipment used for agriculture may not require testing

Republic Act No. 10601 is also called as:

- a. An Act Promoting Agricultural and Fisheries Mechanization Development in the Country**
- b. An Act Promoting Agricultural Mechanization Development in the Country
- c. An Act Promoting Agricultural Machinery Development in the Country
- d. An Act Promoting Agricultural and Fisheries Machinery Development in the Country

When was the date of effectivity of RA 10601?

- a. February 4, 2013
- b. June 5, 2013
- c. June 14, 2013
- d. June 28, 2013**

Who is responsible for the registration of ownership of AFME?

- a. M/CLGUs**
- b. RAED
- c. M/C/PLGUs
- d. RAED and LGUs

ABEMIS stands for?

- a. Agricultural and Biosystems Engineering Management and Implementation System
- b. Agricultural and Biosystems Engineering Mechanization Implementation System
- c. Agricultural and Biosystems Engineering Mechanization Information System
- d. Agricultural and Biosystems Engineering Management Information System**

According to Section 13 of RA No. 11203, the RCEF shall consist of an annual appropriation of?

- a. Ten billion pesos**
- b. Fifteen billion pesos
- c. Twenty billion pesos
- d. Twenty-five billion pesos

How many percent of the Rice Fund shall be allotted for Rice Farm Machineries and Equipment to PHilMech?

- a. 70%
- b. 50%**
- c. 30%
- d. 10%

30% of the RCEF is given to the Philippine Rice Research Institute for the implementation of:

- a. Expanded Rice Credit Assistance
- b. Rice Extension Services
- c. Rice Research and Development
- d. Rice Seed Development, Propagation, and Promotion**

The Expanded Rice Credit Assistance is to be managed by who?

- a. DBP and DOF
- b. DBM and DOF
- c. DBP and LBP**
- d. DBM and LBP

How many percent is allocated for the Expanded Rice Credit Assistance?

- a. 20%
- b. 30%
- c. 10%**
- d. 15%

The Rice Extension Services shall be provided by what agencies?

- a. PHilMech, TESDA, ATI
- b. PHilMech, TESDA, ATI, PHilRice**
- c. TESDA, ATI, PHilRice
- d. TESDA, PHilMech, IRRI, PhilRice

How many percent is the share of the agency who will receive the highest allocation for the Rice Extension Services?

- a. 75%
- b. 70%**
- c. 65%
- d. 60%

50% - Rice Farm Machineries and Equipment, released to PHilMech

30% - Rice Seed Development, Propagation and Promotion, released to Philippine Rice Research Institute (PhilRice)

10% - Expanded Rice Credit Assistance, released to Land Bank of the Philippines (LBP) and Development Bank of the Philippines (DBP)

10% - Rice Extension Services, released to PHilMech, PhilRice, ATI, and TESDA.

- Division for allocation: 70% to TESDA, 10% each to PHilMech, PhilRice, ATI

Refers to the volume of a specific agricultural product that is allowed to be imported with a lower tariff, per RA 8178.

- a. Maximum Agricultural Volume
- b. Minimum Access Volume**
- c. Maximum Access Volume
- d. Minimum Agricultural Volume

What Republic Act is the Ecological Solid Waste Management Act of 2000?

a. RA 9003

b. RA 9367

c. RA 9513

d. RA 9729

RA 9367 – Biofuels Act of 2006

RA 9513 – Renewable Energy Act of 2008

RA 9729 – Climate Change Act of 2009

Which is not allowed to be a final disposal site?

- a. Open dump**
- b. Landfill
- c. Controlled dump
- d. MRF

Open dump - disposal area wherein solid wastes are **indiscriminately disposed without due planning**

and consideration for environmental and health

Sanitary Landfill - waste disposal site maintained in a manner that **exerts engineering control** over significant potential environment impacts

Controlled dump - disposal site at which solid waste is deposited in accordance **with the minimum prescribed standards** of site operation

Materials recovery facility (MRF) - includes a solid waste transfer station or sorting station, drop-off center, a composting facility, and a recycling facility

Who serves as the national technical and administrative secretariat of the National Organic Agricultural Program (NOAB) with the member agencies providing additional staff support as the need arises, according to RA 10068?

- a. BAFE
- b. BPI
- c. BAR
- d. BAFS**
